

9 Leave "place de l'église monolithe" and go to the bottom of the "Tour du Roy" via "rue de la Grande Fontaine". From the tower, the "Jurats" governed Saint-Émilion's Jurisdiction since the 13th century. Nowadays, the "Jurade" is the wine brotherhood of Saint-Émilion. Each year, on the third weekend of september, the "Jurats" go to the top of the tower and announce the opening of the harvest season. The day ends with a great banquet. The gastronomy vocabulary changed a lot since the Middle Ages. Find the **medieval words** in the word search grid and complete the banquet's recipe with the words from the column:

*Lamprey, Recipe, Banquet, Fry, Ingredient, Master-Chef, Simmer, Moisten, Wine.*

Cédric, the \_\_\_\_\_ of the restaurant, prepares the "Jurade"'s \_\_\_\_\_. Robin helps him to prepare a dish, the Bordelaise \_\_\_\_\_, gathering the \_\_\_\_\_ S. He can use Cedric's \_\_\_\_\_ book: « Cut the lamprey's tail and bleed it. Scald the lamprey for a minute. Then, cut it into pieces and \_\_\_\_\_ it in a pan. Do the same with the leeks, the garlic and the onions. Blaze the red \_\_\_\_\_ and add the blood. Put it all into a pot, add bacon and herbs, and \_\_\_\_\_ it with the sauce. Leave it to \_\_\_\_\_ for two or three hours.

Take the stairs on the right of the "Tour du Roy". You will arrive close to the convent where lived the nuns who invented the famous biscuits of Saint-Émilion. Turn right in "rue des écoles" and head back to the Tourist Office.

10 Discover the name of my position at the restaurant. I work in the wine cellar. I select and serve the wines to the clients:

# PISTE DE ROBIN

## GASTRONOMY

### LEVEL 2

9 to 12 years old

*A gourmet adventure*

Hello!

My name is Robin. I'm a cook assistant at the restaurant in front of the Tourist Office. I'm a real gourmet and I want to improve my knowledge about the local specialities of the area and the history of gastronomy. I have heard you have great detective skills. If you help me discover the village and its secrets, you will find the secret password...

Saint-Émilion Tourisme

To help Robin, answer a few riddles in order to collect **nine colored clues** that you will need to write at the end of the game to find the **secret password**. Use a map of Saint-Émilion to find your way around the city and a pen. Are you ready? Let's go!

1 From "place du clocher", look at the village below. In the Middle Ages, Saint-Émilion was a vibrant trading town, surrounded by city walls and vineyards. Since 1999, this exceptional heritage has been protected, as well as the French gastronomy (since 2010)! Find the symbol and the name of the organisation in charge of this protection on the bell tower. Write down the letters of that organisation:

Answer : \_ \_ \_  \_ \_ \_

2 At the bottom of the village, in the valley, flows the "Dordogne" river. There lives a prehistoric animal that looks like an eel and is a regional food speciality. Solve the following enigma (we divided the word into syllables) to guess the name of this speciality prepared with red wine and blood:

- 1- I can be powered by electricity, oil or kerosene and I'm used to light up.
- 2- I am synonymous of a beam of light.

Answer:  \_ \_ \_ \_  Y

3 Now, go back to the **Tourist Office**. In the Middle Ages, the building belonged to a monastery (where lived monks). They ate in this room around a large oak table which has now disappeared. What is the name of this huge room in a monastery?

Answer: R E \_ \_ \_  R Y

4 The monastery was organised around a **cloister**, a main courtyard surrounded by covered galleries. Go through the door on the right of the Tourist Office to enter. In the Middle Ages, the clergy levied a tax on crops. Look at the photo bellow carefully and find the round stone used to measure these taxes. Answering this puzzle, guess the name of the crops measured with this stone:

- 1- I am the third letter of the alphabet
- 2- I am synonymous of the word « true »

Answer: \_ \_  \_ \_ \_ S

5 Stop in front of the map of Saint-Émilion's Jurisdiction. This historical territory is now the area where we produce two kinds of wine: « Saint-Émilion » and « Saint-Émilion Grand Cru ». Solve this operation and complete the text with the matching figure:  $8 \times \_ = 40$

« Saint-Émilion vineyard covers around 7\_00 hectares. It is composed of about 8\_0 châteaux or wineries, of which 80 are classified. The annual production totals some 4\_ millions of bottles. »

The number you found corresponds to a letter of the alphabet. Answer :

6 Now, leave the cloister and turn left in "rue des Girondins". You will pass two shops that produce and sell Saint-Émilion's speciality invented in the 17th century by the Ursuline nuns. They are (french name):

\_ \_ \_ \_ \_ S

7 At the end of "rue des Girondins", cross carefully "rue Guadet" and reach the "cloître des Cordeliers". If the door is open, go inside and discover the beautiful monument. Below (about 20 metres deep), there are three kilometres of underground quarries that host bottles of a sparkling wine. Guess the name of this wine unraveling this riddle (each number corresponds to a letter):

3 - 18 - 5 - 13 - 1 - 14 - 20

Answer : C \_ \_  \_ \_ T de Bordeaux

8 From "place Cap du Pont", go back down, cross the main street and go straight to "rue de la Cadène". It leads to the main square where the market took place in the Middle Ages. The "halles", or covered market (the building on your right), sheltered food. Try to recognize the vegetables already in use at that time. Cross out the three intruders:
