# THE **22** GRAND SAINT-ÉMILIONNAIS AREA VILLAGES

## BELVÈS-DE-CASTILLON

Marked by the end of the Hundred Years War, the village hosts every year the show « La Bataille de Castillon » at the Chateau de Castegens.

## LES ARTIGUES-DE-LUSSAC

The construction of the abbey and church of Faize in the 12<sup>th</sup> century (then destroyed during the French Revolution) marked the beginning of the development of the village. Today, the Sacré Coeur church, dating back to the 19<sup>th</sup> century, is remarkable for its interior frescoes and stained glass windows.

## NÉAC

Néac is notable for its vineyards heritage and by the energy shown by its winegrowers to obtain an AOC. Today, the village's main attraction is Chateau Siaurac.

## FRANCS

After the battle of Vouillé in 507, Clovis seized the Aquitaine region. A detachment of the Frankish army settled in a place that took the Latin name « ad francos » which means « belonging to the Franks », becoming later « Francs ».

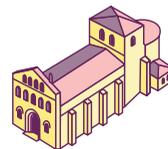

## LUSSAC

Numerous Gallo-Roman vestiges are still visible in Lussac, such as the « Villa de Lucius » or the Gallic megalith of « le tertre de Picampeau », evidence of its long history.

## PETIT-PALAIS-ET-CORNEMPS

The municipality has two churches - the 12<sup>th</sup> century classified Saint-Pierre church and the 11<sup>th</sup> century registered Notre-Dame church - that were the scene of violent battles between Protestants and Catholics at the end of the 16<sup>th</sup> century during the wars of religion.

## GARDEGAN-ET-TOURTIRAC

Gardegan-et-Tourtirac seems to have been inhabited since the prehistoric period. The Chateau de la Pierrière, the churches of Saint-Martin and Saint-Pierre, dating from the medieval period, are today the remains of a rich past.

## MONTAGNE

Gathering of three municipalities in 1973 : Montagne, Saint-Georges and Parsac. The village owns an important number of churches (Saint-Martin, Saint-Georges and Notre-Dame-de-Parsac), chapels, chateaux and mills with the renowned « mills of Calon ».

## PUISSEGUIN

Today, the village is remarkable for its two castles - Monbadon and Puisseguin - as well as for its churches Saint-Martin and Saint-Pierre, which reflect its rich medieval heritage.

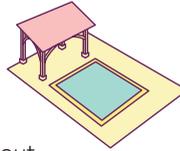

## SAINT-CHRISTOPHE-DES-BARDES

The 769 hectares of the village are located on the plateau of the Jurisdiction. Its romanesque church is listed as a Historic Monument with a portal dating back to the 12<sup>th</sup> century.

## SAINT-GENÈS-DE-CASTILLON

Over its whole territory, the built heritage is rich of about fifty elements : fountains, laundries, dovecotes, churches... The natural heritage is also important as woods and forests represent 95 ha of the 680 ha of the village.

## SAINT-PHILIPPE-D'AIGUILLE

Perched on a promontory on the right bank of the Dordogne river, the village developed since Antiquity. This is where the château d'Aiguille was erected in the Middle Ages. Destroyed, then reconstructed, it sheltered a Templars commandery in the 13<sup>th</sup> century.

## SAINT-CIBARD

Between lakes, woods, hills and vineyards, the village of Saint-Cibard is located on the ridge line separating the Dordogne from the Isle valley and is part of the denomination « Francs Côtes de Bordeaux ».

## SAINT-HIPPOLYTE

The little winding road that dominates part of the Jurisdiction's woods and vineyards leads to the plateau de Ferrand, where you can find a chateau dating back to the 17<sup>th</sup>-18<sup>th</sup> centuries and a Romanesque style church.

## SAINT-SULPICE-DE-FALEYRENS

Located in the plains of the Jurisdiction, next to the Dordogne river, the village is home to a 12<sup>th</sup> century Romanesque church listed on the Supplementary List of Historic Monuments, the ancient port of Saint-Émilion - called « de Pierrefitte », after a 5 meters-high menhir that still stands there today.

## SAINT-ÉMILION

A magnificent medieval town that owes its reputation to the quality of its wine and its rich heritage. The village contains many protected Historic Monuments.

## SAINT-LAURENT-DES-COMBES

Its exceptional location, formed by a succession of valleys covered by woods and vines, offers a panorama over the Dordogne valley from the plateau where the church is located.

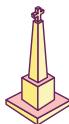

## SAINTE-TERRE

Earth brought back from Palestine during the first crusade in the 11<sup>th</sup> century was spread at the top of the village and the church Sancta Terra was built on that place. Erected on the edge of the Dordogne river, the village of Sainte-Terre keeps a strong tradition of professional and amateur fishing.

## SAINT-ÉTIENNE DE LISSE

This delightful little village owns a rich heritage, including a 12<sup>th</sup> century church that is listed on the Supplementary List of Historic Monuments. The medieval château de Pressac, where the English surrender may have taken place at the end of the Hundred Years War, rises at the top of the village.

## SAINT-PEY-D'ARMENS

The church dates back to the 13<sup>th</sup> century. Next, you can see a 16<sup>th</sup> century cross listed as a Historic Monument.

## TAYAC

Beautiful example of 12<sup>th</sup> century Romanesque style architecture, the church Notre-Dame de Tayac overlooks the vineyard landscape.

## VIGNONET

Located on the banks of the Dordogne river, Vignonet lies on the South of the Jurisdiction and owns a beautiful church. You will also discover a beautiful view of the hillsides of the Jurisdiction and the town of Saint-Émilion.

## THE CORDELIERS' CLOISTER

Franciscan friars settled down in Saint-Émilion in the 13<sup>th</sup> century and founded their second convent inside the city walls during the 14<sup>th</sup> century. These magnificent ruins are a haven of peace and relaxation, where you can enjoy a glass of « Crémant de Bordeaux ».

**THE URSULINES' CONVENT**

Founded in the 17<sup>th</sup> century by Ursuline sisters, also creators of the Saint-Émilion macaroon recipe, the convent still stands today, although only a small part remains.

# A UNESCO WORLD HERITAGE SITE

*Saint-Émilion's Jurisdiction is listed as a UNESCO World Heritage Site since 1999 for its « cultural landscape ».*

*A world first for a vineyard! According to the UNESCO, « the Jurisdiction of Saint-Émilion is an outstanding example of a historic vineyard landscape that has survived intact and in activity to the present day ». It also « exceptionally illustrates intensive cultivation of the vine in a region defined with precision ».*

## *A Unesco site shaped by its history*

The registration highlights an exceptional human adventure of 800 years, which includes the medieval village of Saint-Émilion and the seven villages that surround it. Without destroying it, human communities made the most of the characteristics of the territory to develop their activities and their way of life. The culture of lands, the exploitation of quarries, the urban development, the construction of religious buildings and houses: all this created a landscape in perfect harmony with the topography and the site resources.

## 13 CENTURIES OF HISTORY AND TRADITIONS

*The landscapes, culture and art of living of the Grand Saint-Émilion Area have been shaped by the history and traditions of this territory. Hermit Émilion's settling in the heart of an old forest, followed by five religious orders, has left marks on the area's architectural heritage as can be seen with the monasteries, convents and churches. These coexist with more than 10 000 hectares of vines that cover our territory and over 200 km of underground galleries.*

### *At the beginning : a religious site*

In the 8<sup>th</sup> century, a Breton named Émilion decided to leave Vannes, his native land, to devote himself to prayer. His wanderings would have taken him to an abbey where he became a monk and then to Ascumbas, the ancient name of our territory. Living in a cave, he would have been joined by some Benedictine disciples, founded the first religious community and evangelized the population.

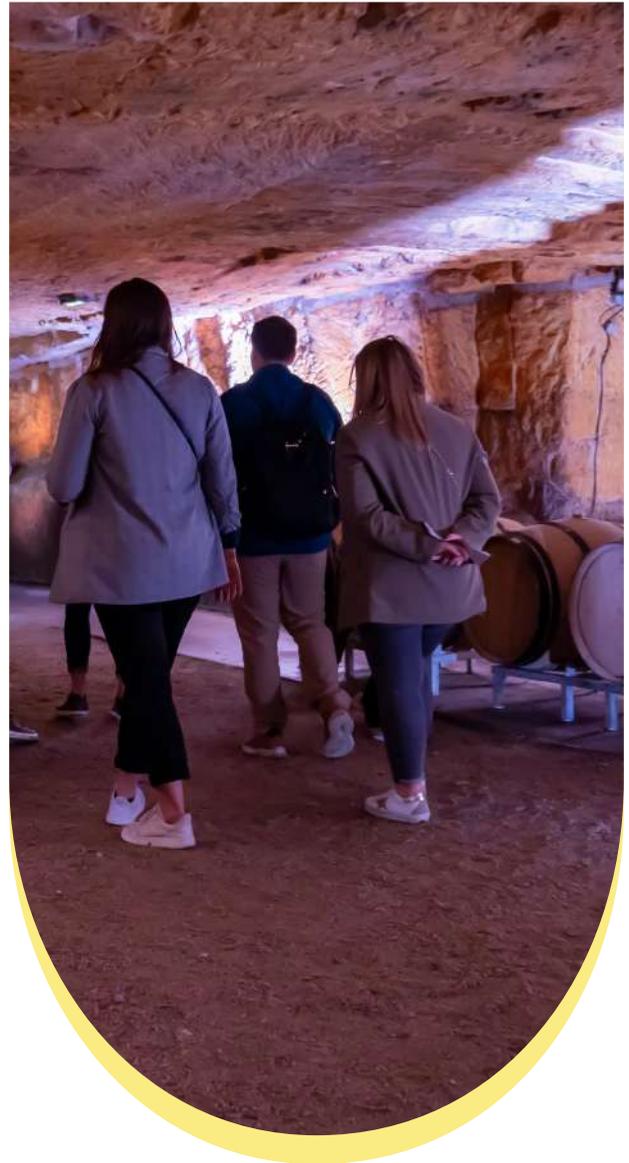

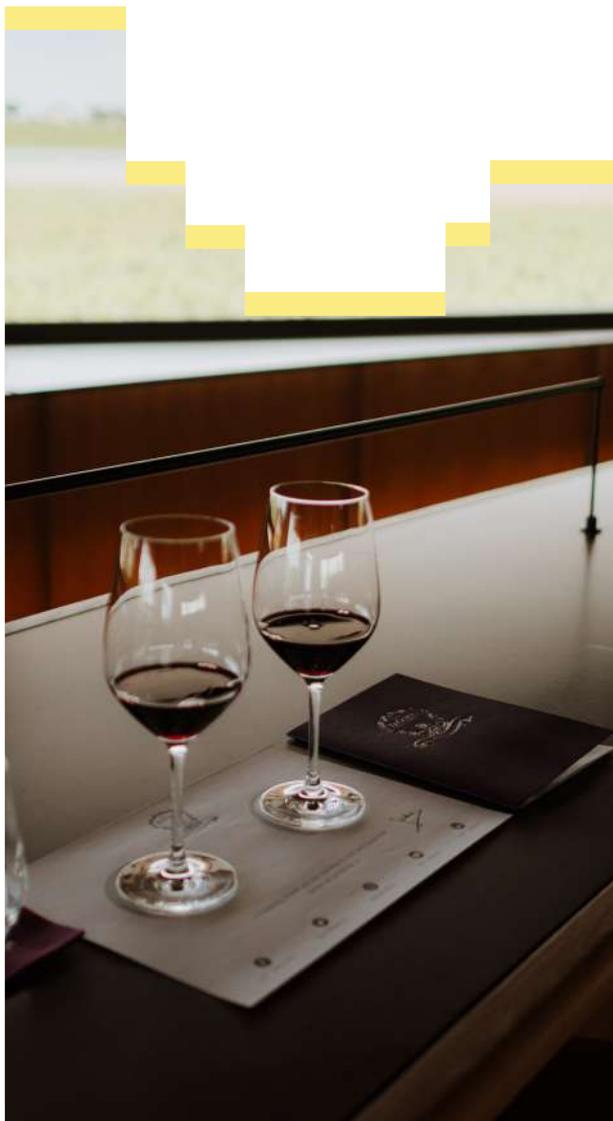

After the Émilion's death - around 767 - a village was built in his honor. Between the 8<sup>th</sup> and 18<sup>th</sup> centuries, five religious orders coexisted or succeeded each other at the heart of the medieval town, turning it into a high monastic place. Benedictine, Augustinian, Franciscan, Dominican monks and Ursuline sisters welcomed for several centuries the pilgrims on their way to Santiago de Compostela.

## *World fame : wine*

Viticulture has always been present on the right bank of Bordeaux, with the first vines dating from the 2<sup>nd</sup> century and planted by the Romans.

After the collapse of the Roman Empire in the 5<sup>th</sup> century, viticulture survived and spread due to Christianity, which made wine a central element of worship ; the religious community started to grow vines. But it was in the Middle Ages, when Aquitaine was attached to the Kingdom of England, that the Saint-Émilion wines obtained their letters of nobility.

However, it is only from the 19<sup>th</sup> century that a monoculture of vines was established in the Jurisdiction of Saint-Émilion. In 1884, the importance of wine on our territory was notably reflected in the creation of the first French Wine Producers Union in Saint-Émilion, now known as the Wine Council.

## *The golden age : the limestone extraction*

Between the 9<sup>th</sup> and the 19<sup>th</sup> centuries, the stone was massively extracted from the limestone plateau creating an immense network of 80 ha of underground quarries forming a labyrinth of almost 200 km. This limestone rock was exploited relentlessly by the quarrymen of Saint-Émilion and was used for the construction of the medieval city and some Bordeaux monuments such as the Grand Théâtre.

It is thanks to the transport on the Dordogne river with the gabares (traditional barges) and « coureaux », small robust ships with flat bases, that stones and food were transported towards the port of Bordeaux and the Atlantic coast since the Middle Ages. The Dordogne river was, several hundred years ago, a key factor to the economic development of the area.

## NATURE AND GETAWAY

*Put on your sneakers, grab  
your backpack and get going !*

The Saint-Émilion's region is full of treasures : vineyards as far as the eye can see, châteaux with incredible architecture, Romanesque or Gothic style churches that have crossed centuries, mills and wash houses, river and ponds...

Take time to discover these treasures which are within hand's reach... Because there is no need for a special occasion to marvel at the beauty of the outdoors !

To accompany you, the Tourist Office and its partners have created nature walks and bike rides to guide you between small paths and rows of vines.

## A CULTURAL LANDSCAPE

*A cultural landscape is, for the UNESCO, a representative landscape of a region of the world expressing the « combined works of human beings and nature. They express a long and profound relationship between people and their environment ».*

*In the Jurisdiction of Saint-Émilion, everything reminds us that Men and Nature moved forward together, developing the vine growing techniques that appeared more than 2000 years ago. Religious and winemaking architectures, as well as underground heritage sites, are all illustrations of a society and its skills that have to be kept alive and passed on to future generations.*

### *The 8 municipalities of the Jurisdiction*

The UNESCO registration of our territory covers the Saint-Émilion Jurisdiction area, in other words the medieval village of Saint-Émilion, the seven villages surrounding it as well as their vineyards. From 1199 - when the Jurade was established - until 1999, this territory has been defining itself as a « family and viticultural community ». This definition is one of the foundations of the UNESCO registration. A recognition in which its inhabitants take great pride : throughout these years, they all have in their own way, contributed to the success and durability of the Saint-Émilion's vineyard.

*Do not forget the Dordogne river !*

#### **THE DORDOGNE RIVER, NATURAL BIOSPHERE RESERVE**

On July 11<sup>th</sup> 2012, the International Coordinating Council of UNESCO's «Man and Biosphere» program integrated the Dordogne basin into the world network of Biosphere Reserves.

The recognition offered by this program highlights the exceptional territory of the Dordogne River including a protected nature, combined with its cultural heritage and lifestyle.

## EXPLANATION OF

1

**WOOD**

The stand of trees at the edge of the plateau above the limestone cornice, creates a colourful line, visible at a distance, that highlights the close and armonious relationships between vegetation, terrain, geology and human activities.

2

**COMBS**

The landform played a significant role in the choice of human interventions. Here, man has been able to adapt to his natural environment and exploit it to the fullest, without making any major changes, thus giving the landscape its exceptional character. The graphics of the vines highlight the slopes, the convexity or the concavity of some areas.

3

**TRANSMISSION OF AN AGRICULTURAL SYSTEM**

The main characteristic of this region is that it has preserved the agrarian structures from the late Middle Ages, which do not exceed a few hectares. No manufacture nor workshop have been set up there.

# THE WORLD HERITAGE LISTING

4

## VINE MONOCULTURE

This monoculture has created a structured, ordered and harmonious landscape, characterized by a regular rhythm.

5

## NATURAL AMPHITHEATER

Saint-Émilion was built in a natural amphitheatre with material extracted from its underground.

6

## WALLS

The perfect balance between the work of Man and Nature appears in every detail, like in this major and original feature of the site : the stone walls. Those walls separating the vines from the road, built in the 18<sup>th</sup> century with the stones from the quarries, are a fencing system specific to this region to protect the vineyards from pillages.

7

## BALANCE BETWEEN MAN AND NATURE

In addition to well-maintained châteaux, mansions and preserved Romanesque style churches, the Jurisdiction hosts mills and stone crosses whose conservation testifies the will of the local people to protect the site.

8

## TESTIMONY OF LIFE

A very ancient place of settlement, the natural caves inside the limestone hills, as well as the exceptional climate, fostered the settlement of humankind since prehistoric times.

# HOW TO BE AN AN ECO-TRAVELLER ?

## Preparing for your trip

**1** To get off to a good start on your trip, it is important **to be aware of the specific features** of your destination : the first step is **to find out all you can** about it.

**2** **Choose destinations close to home** : avoid long flights and opt for places you can reach by train, bus or even bicycle. This reduces the carbon emissions associated with transport.

**3** **Opt for environmentally-friendly accommodation** : look for eco-responsible hotels, gîtes, campsites or guest houses. Have a look at our partners here :

[Accommodations page 88](#)

**4** **Plan your holiday in advance** : during your stay, group your activities by geographical area to reduce travelling and, consequently, the impact on the environment. Our destination is full of walking and cycling routes ! Don't hesitate to include them in your programme for a more immersive and respectful experience. Read more about it here :

[On foot / by bike page 26](#)

## The right things to do

**5** **Favour soft mobility** : choose alternative forms of transport such as mechanical and electric bicycles, as well as original local means of transport, such as segways or tuk-tuks for a unique experience.

**6** **Promoting the local economy** : to discover a destination, reduce one's ecological impact and encourage the local economy, buy local and seasonal products, eat in traditional restaurants and stroll through markets. This helps to preserve cultural traditions and reduce the carbon footprint associated with importing products. Shop responsibly with 100% Grand Saint-Émilionnais products !

**7** **Treat yourself with activities that respect the environment** : choose sensible activities, such as a bike ride through the vineyard or a hike to discover the biodiversity.

**8** **Raise awareness among other travellers** : share your knowledge of eco-responsible practices and encourage other tourists to adopt environmentally- friendly gestures. Together, we can make a positive difference for the planet.

*Don't forget that travelling in an eco-responsible way doesn't mean sacrificing pleasure and discovery, but rather finding a balance between exploring new places and respecting the environment.*

## *Saint-Émilion, a gourmet destination*

### GOURMET NEWS!

When the name Saint-Émilion is mentioned, some people think only of wine, but others think of delicacies and traditional recipes. The gastronomy of Saint-Émilion is inspired daily by our local heritage and soil.

Wine has an important place in this cuisine. It is not surprising that chefs such as Philippe Etchebest have worked here! The region has maintained its reputation for gastronomic excellence, thanks in particular to the presence of its three Michelin-starred restaurants.

- **LA TABLE DE PAVIE** 🌟🌟 in Saint-Émilion with the Chef **Yannick Alléno** and the pastry chef **Sébastien Nabaile**, who was designated pastry chef of the year 2025 by Gault et Millau

## *What to eat in the area ?*

*Enjoy a sparkling moment with a glass of « Crémant » while tasting macaroons !*

### THE MACAROONS OF SAINT-ÉMILION

A remaining gourmet tradition. This gourmet speciality has been transmitted down from generation to generation in Saint-Émilion since the Ursuline sisters established their convent in the medieval city in 1620. Less colorful than the Parisian macaroons, our macaroons are “only” made of sweet and bitter almonds, egg whites and sugar! You can enjoy them with coffee, champagne, wine, as a dessert with fresh fruits and/or ice cream.

### BUBBLES IN SAINT-ÉMILION

At the heart of the village, the production of Crémant de Bordeaux (sparkling white or rosé wine made according to the traditional method) has been perpetuated since the 19th century both under the King’s Keep and in the darkness of the underground quarries of the old Franciscan monastery but also at the Lateyron cellars. Take a moment to follow a guided tour of these three places to discover the secrets of making and tasting their crémant.

## OUR GIFT BOXES

*Enjoy or treat your loved ones with an exceptional stay in Saint-Émilion thanks to our exclusive gift boxes.*

*From activities to overnight stays, we create memorable experiences and extraordinary moments just for you, whether it's an activity or an entire stay.*

## WINE & TERROIR

*The exceptionality of the Saint-Émilion vineyard can be explained by its remarkable geology combined with a microclimate, perfectly adapted to the wine culture. The Romans were the first ones to invest on the local soil in the 2<sup>nd</sup> century and to plant the first vines. There is no doubt that wine already occupied an important place in the Gallo - Roman period, although the monoculture of vines in the Jurisdiction of Saint-Émilion was implemented from the 19<sup>th</sup> century.*

### *The area*

*To make worldfamous wines, you need an exceptional terroir !*

This one is a subtle alliance between :

- **4 TYPES OF SOILS** : limestone, clay, gravel and sand.
- **3 MAIN GRAPE VARIETIES** : Merlot, Cabernet Franc and Cabernet Sauvignon.
- **A TEMPERATE OCEANIC CLIMATE** ideal for wine growing, with moderate temperature variations between summer and winter and a well distributed rainfall throughout the year.
- **THE UNIQUE KNOW-HOW OF WINE GROWERS** in our area.

### *The classification of Saint-Émilion wines*

To obtain the Grand Cru designation, winemakers must be located on a strictly defined territory, sternly respect established specifications and of course, produce red wine.

The wines of the Saint-Émilion Grand Cru designation can aspire to a classification, reviewed every 10 years (the last one dating back to 2022) and distinguishing 3 levels of quality :

- **1<sup>ST</sup> GRAND CRU CLASSÉ A - 2 WINE ESTATES** :  
Château Figeac - Château Pavie
- **1<sup>ST</sup> GRAND CRU CLASSÉ - 12 WINE ESTATES**
- **GRAND CRU CLASSÉ - 71 WINE ESTATES**

*It is the Wine Council, through the Jurade, which ensures the reputation and promotion of these wines, both in France and abroad.*

# THE JURADE

*While the Aquitaine region was under English supremacy since 1152, the charter signed by King John in 1199 gave political, economical and judicial power to Saint-Émilion and then to its jurisdiction.*

Dissolved during the French Revolution, the Jurade was reconstituted in 1948 by local winemakers in its current form as a brotherhood. Nowadays, the Jurade is a witness to the traditions of the past and guarantees the values of respect for heritage, conviviality and solidarity.

As a link between past and future, this prestigious brotherhood organizes receptions and induction ceremonies during which the 130 Jurats (members of the Jurade) perpetuate the values of sharing and the transmission of legacy and tradition while embracing modernity.

Its members wear their traditional red robes twice a year : for the Spring Festival in June and for the Ban des Vendanges in September (harvest celebration).

## *The Jurade in a few figures*

Over  
**800**  
years of history

**140**  
jurats, guardians  
of the tradition

More than  
**3 000**  
personalities inducted  
(since 1948)

**10**

**1**  
motto  
"To Saint-Émilion,  
always faithful"

# THE DESIGNATIONS OF THE AREA

*There are 12 different appellations in the Grand Saint-Émilion Area, each with their own specificities.*

# CHÂTEAU D'ANVICHAR

## *From America to Saint-Émilion : Love at first sight for terroir and a historic domaine*

*It's a love story, love at first sight, between Carol Zaist and Chateau d'Anvichar. In the heights of Saint-Émilion, this vineyard of roughly 6 hectares is an invitation to enjoy the grands crus created under an eco-responsible directive.*

Enchanted by the beauty of its location, and by the story of the three young men who gave it their names, the new female owner and winemaker decided to jump into this inspiring adventure. Born in the United States, Carol strives to share with the entire world this historic winery perched on a limestone slab in a small village just outside the gates of Saint-Émilion. The organic winery is in the Castillon, Cotes de Bordeaux appellation.

### **HONOR THE PATRIMONY AND RESPECT THE PLANET : A CALLING**

Anchored in its terroir, Chateau d'Anvichar cultivates a profound respect for nature. Prioritizing viticulture respectful of the environment, the winery preserves biodiversity and guarantees the quality

of its wines. Optimization of the use water and eco-conscious packaging testify to the drive to produce exceptional wines that respect the planet and the mostly-female winemaking team's hard work. All to add to the pleasure of wine tasting !

Want to see for yourself? Close your eyes and let yourself be transported by a symphony of the senses. Discover the property and its breath-taking views of a valley of vines, visit the chai and the cellar, and finish with a tasting of our wines, accompanied by gourmet pairings! Cultural events await you, including concerts and art exhibitions.

***Did you know ?*** The labels of Chateau d'Anvichar feature three loyal companions. These dogs have become the symbol of our winery, embodying their values: loyalty, friendship and a love of life!

# CHÂTEAU MICHEL DE MONTAIGNE

*Between vineyards and history in the footsteps of Montaigne*

*Saint-Émilion, whether you're a history buff or wine connoisseur. A timeless place where the spirit of Montaigne can still be felt in the air.*

Two historic and architectural treasures, with the Historic Monument classification, stand at the heart of the vineyard: the Michel de Montaigne Château and Tower. This is more than just an estate, it's a place where the echo of his thoughts still resounds.

## A CULTURAL, WINEGROWING JOURNEY THROUGH TIME

On a stroll around the landscaped grounds you'll be whisked back to the 14th century, when Montaigne wrote his famous 'Essais' in his tower. The 19th-century, 'Belle Époque'-style château is more than a place of remembrance, as it is also a winegrowing estate. After the guided tour, stay for a tasting of the estate's wines, made the traditional way.

Events are organised at the estate throughout the year, including an Easter egg hunt, white-themed evenings in the summer and literary talks entitled 'Montaigne à livre ouvert' (Montaigne, an open book)!
